Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Introduction

1. Applicants' after final amendments and remarks filed on 11/28/2007 have been entered. Claims 1, 3, 7, 10, 12-15, 18, 95 and 96 are active. Claims 2, 4-6, 11, 16, 17 and 97-104 have been withdrawn.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. In response, the grounds of rejections have been updated as set forth below. US 5149579 and US 4701371 remain to be withdrawn, and to be reinstated, if appropriate.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 1, 3, 7, 10, 12-15, 18, 95 and 96 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01.

As pointed out by applicants [Remarks page 2] that the omitted structural cooperative relationships are found in specification [0048] that the skin is a multilayer construction described as "barrier films may need to be joined to the foam core or other layers by an assisting tie layer for bonding. Similarly another layer may need to be added to the surface to provide acceptability

for food contact.” Clearly, the bonding layers are disclosed as discrete “tie layer” or outer “contacting layer”. Deleting of such a structural relationship in the amendment, filed 8/10/2007, to claim 1, renders the scope of recited limitation “the first polymeric skin layer comprises a bonding polymer that facilitates bonding” vague and indefinite, because it is unclear where is the bonding polymer in the skin layer. For example, is the bonding polymer blended homogeneously with the barrier polymer, or distributed as particulates in the barrier layer, etc.?

Response to Argument

6. Applicants’ remarks filed 11/28/2007 have been considered. In response, the rejection over 35 112, first paragraph has been withdrawn.

Conclusion

7. Applicants’ amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
